

Gabriella's Pride And Joy Of Reinglen

Breed German Shepherd Dog
Sex Bitch
Colour Black & Gold

Health Tests

Elbow Grade

An elbow grade is a measure of any evidence of elbow dysplasia (abnormal development). Both elbows are graded (between 0-3), but only the highest grade is used as an overall elbow grade for the dog. The lower the grade the better, with the advice given to breeders to ideally breed from dogs which have an elbow grade of 0 or 1.

Test	Result	Date	Age
Elbow Dysplasia	0	15th May 2013	1 year

Hip Score

A hip score is a measure of evidence of hip dysplasia (abnormal development). Scores for each hip are added together to get an overall hip score for a dog. Scores range from 0 to 106, with the lower the score the better. The advice to breeders is to ideally breed only from dogs which score below the breed average.

Test	Result	Date	Age
Hip Dysplasia	7/4 = 11	15th May 2013	1 year
